11. Air Quality	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
12. Other	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>

Purpose of Inspection:

To hold a stop work conference.

Directions to Site:

The site is approximately 5 miles west of Fillmore.

Inspection Summary:

We arrived onsite to conduct a stop work conference and visit the mine site.

They showed us the highwall area and the various conveyors and crushers, made a point that they are run on electricity and have not mined due to the electricity being shut off. They stressed that have product stockpiles they need to sell. They have a contract with UDOT for deslicking product they need to maintain. We discussed what we needed to get them back in business.

Conclusions and Recommendations:

Mary Ann determined that if they could come up with \$100,000 dollar bond and finish the permitting process, then we would be able to lift the cessation order.

Inspector's Signature Thomas Munson
